'Improving Homes, Changing Lives'
'Gwella Cartrefi, Newid Bywydau'

Care & Repair Western Bay is a charity supporting & assisting older, disabled & vulnerable people in the City & County of Swansea & the County Borough of Neath Port Talbot. Our aim is to help people remain independent & live in comfort, safety & security in their own homes.

We provide a wide range of services including:

- Benefit advice
- Handyman service
- Fire Safety Audit
- Advice, support & assistance to homeowners in carrying out repairs, improvements & adaptations
- Comprehensive contractors list for works we are unable to carry out
- Healthy Home Check
- Energy efficiency advice
- Signposting to other organisations & services
- Applying for grants & benevolent funding to help pay for works needed

Once we have your details, we can start to look at all the options to find the best way to solve your housing problems.

If we can help, we get the work done in a way that suits you.

Depending on your personal circumstances, and if we have a project that fits the work requested, we can sometimes offer assistance for free.

However, under some of our projects there is a cost for the work.

For larger or more complicated housing needs, our team of visiting caseworkers & technical officers can carry out a 'Healthy Home Check' offering advice & support—and if needed, help to apply for Council grants.
