

Gellideg Wellbeing Centre is the first Passivhaus Community Centre in Wales – and it is from this Wellbeing Centre our staff and volunteers deliver services that change people's lives.

By renting space in our fabulous Centre you help finance the projects that we offer to support local people. These include our community pantry, early years and family support, our youth programme, dementia activities, help for carers, family holiday programmes, environmental schemes, food and physical exercise programmes and so much more!
