What is the Wales Ukulele Project

The Wales Ukulele Project is a not-for-profit organisation that uses music to build communities for the purpose of tackling loneliness and promoting wellbeing.

We run our own classes and sessions in partnership with charities and community groups. We also run workshops and events, as well as support teachers and community leaders.

Our profits are used to donate ukuleles to schools and libraries giving everyone, regardless of age the opportunity to learn a musical instrument. Donations are also given to community groups using ukuleles for the purpose of promoting wellbeing. We have already donated ukuleles to Torfaen Libraries, AWEN Libraries and FFaldau Primary School in Bridgend with more to come.

The aim is to be a support for ukulele groups and clubs within Wales and to provide a starting block for people to find a group to socialise and not feel alone. It's not just about the music but the social interaction everyone gets out of singing and socialising with others.

We have put on many events including our Summer Strum at Porthcawl, Live Youtube Shows and our Pembroke Ukulele Day.
